

A538 Junction Improvement Scheme – Construction Impact Management

Look ahead – Thursday 1st March 2018 – Sunday 1st April 2018

In order to carry out the junction improvement on the A538, whilst keeping traffic and disturbance to a minimum, certain measures have been put into place to manage impact where possible.

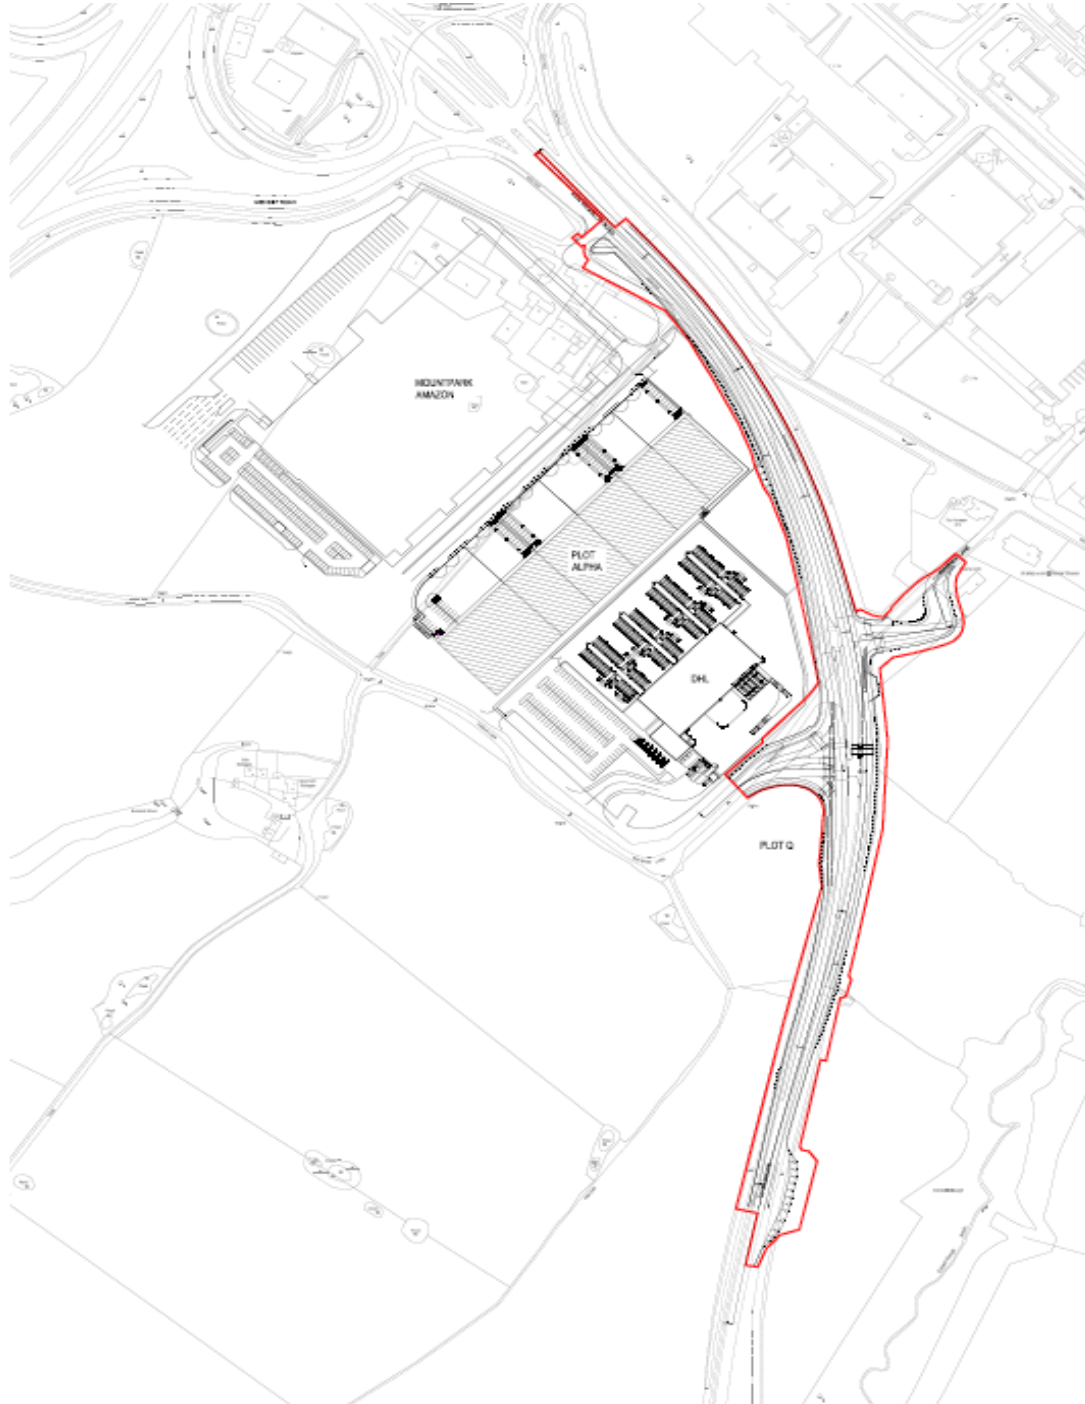

Works are now coming to a close on the A538 junction improvement scheme. There will be some traffic disruptions along the stretch of road adjacent Amazon and DHL warehouses for the next 3 to 4 weeks, following which the junction will be fully operational. Traffic signals will be commissioned next Tuesday, and will be operating under restricted Traffic management. Below highlights some key upcoming dates on the scheme:

- Monday 5th - Tuesday 6th March- There will be an off-peak Southbound single lane closure North of Hale four seasons roundabout (09:30 - 15:30). Lights to be manually controlled to minimise disruptions.
- Monday 5th - Friday 16th March There will be NB/SB off-peak single lane closures South of Sunbank lane (09:30 - 15:30). Lights to be manually controlled to minimise disruptions.
- Tuesday 6th March - Traffic signal commissioning. Going forward permanent signals will be operational with reduced traffic management presence.
- Wednesday 7th March - Permanent bus stops will be operational. Temporary footpath still in place South of Sunbank junction.
- Monday/Tuesday 5th /6th & 12th/13th Feb - There will be off-peak WB lane closures, with two-way traffic lights on Sunbank lane East (09:30 - 15:30). Lights to be manually controlled to minimise disruptions.

Please see below sketches and plans to further illustrate the location of these restrictions. Please note that while we endeavour to achieve the plan outlined below, there may be slight variations to the dates and locations shown due to actual progress achieved on site.

Thank you for your patience during this disruption.

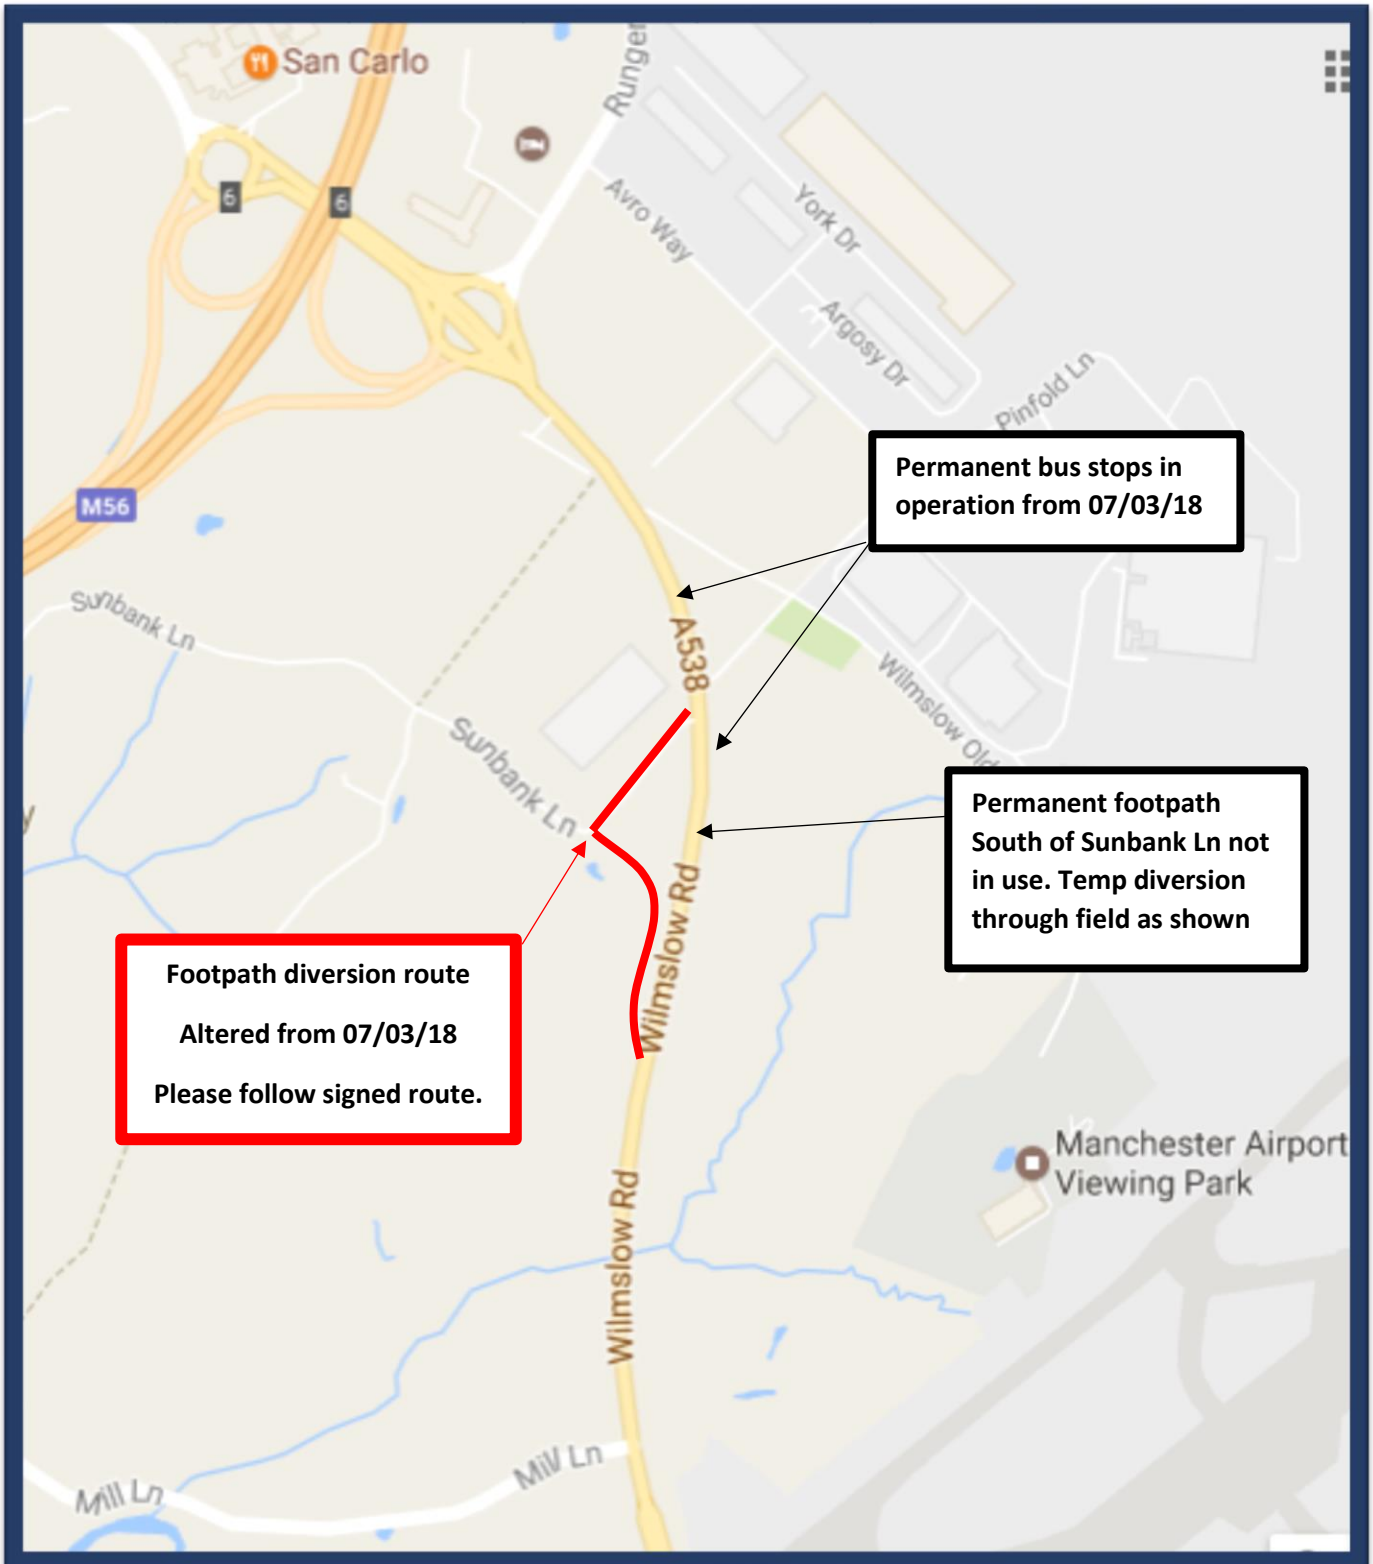

A538 Junction Improvement Scheme

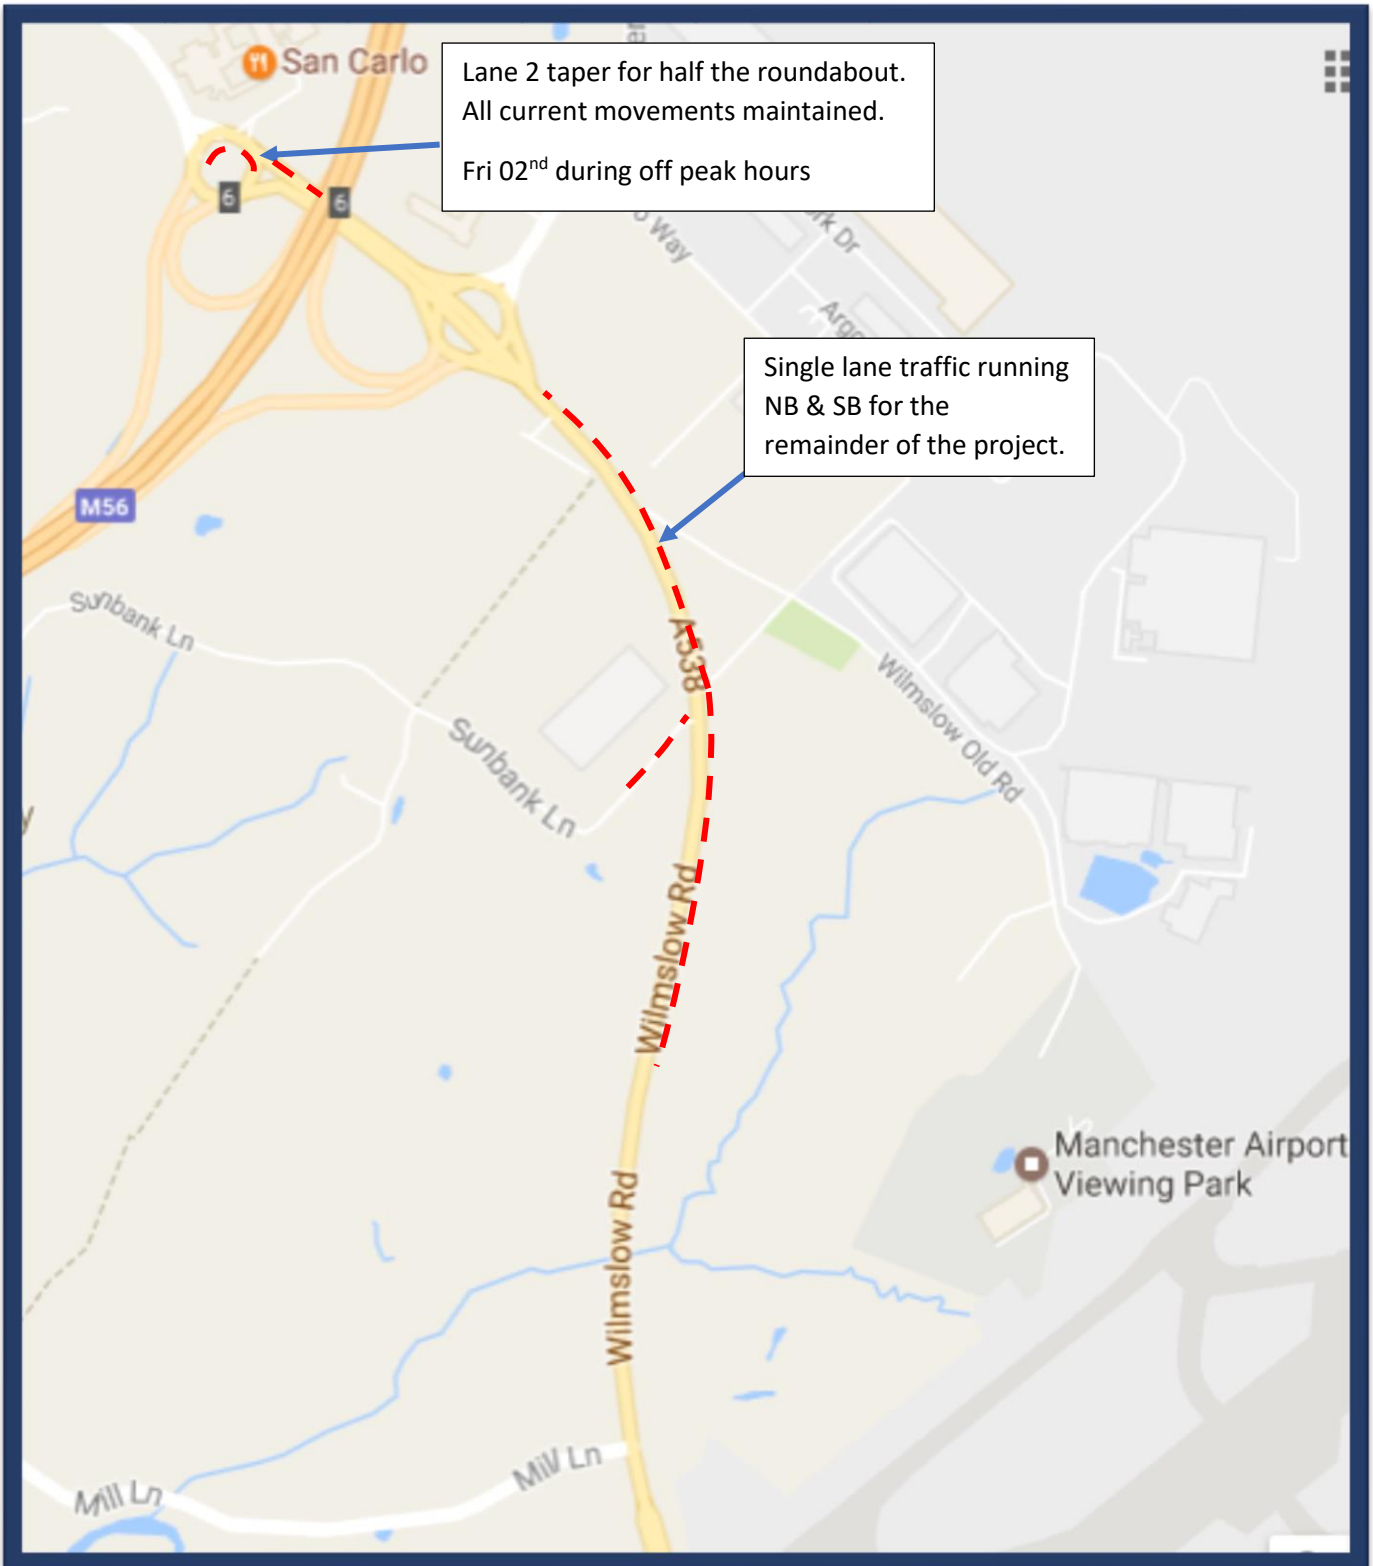

4-week TM Lookahead

Update 31

Friday 02nd March – Friday 30th March

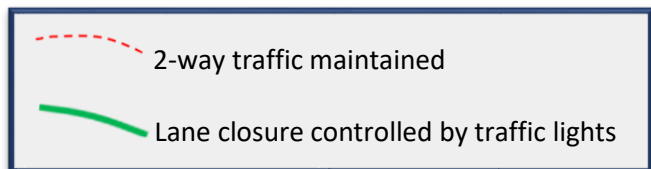

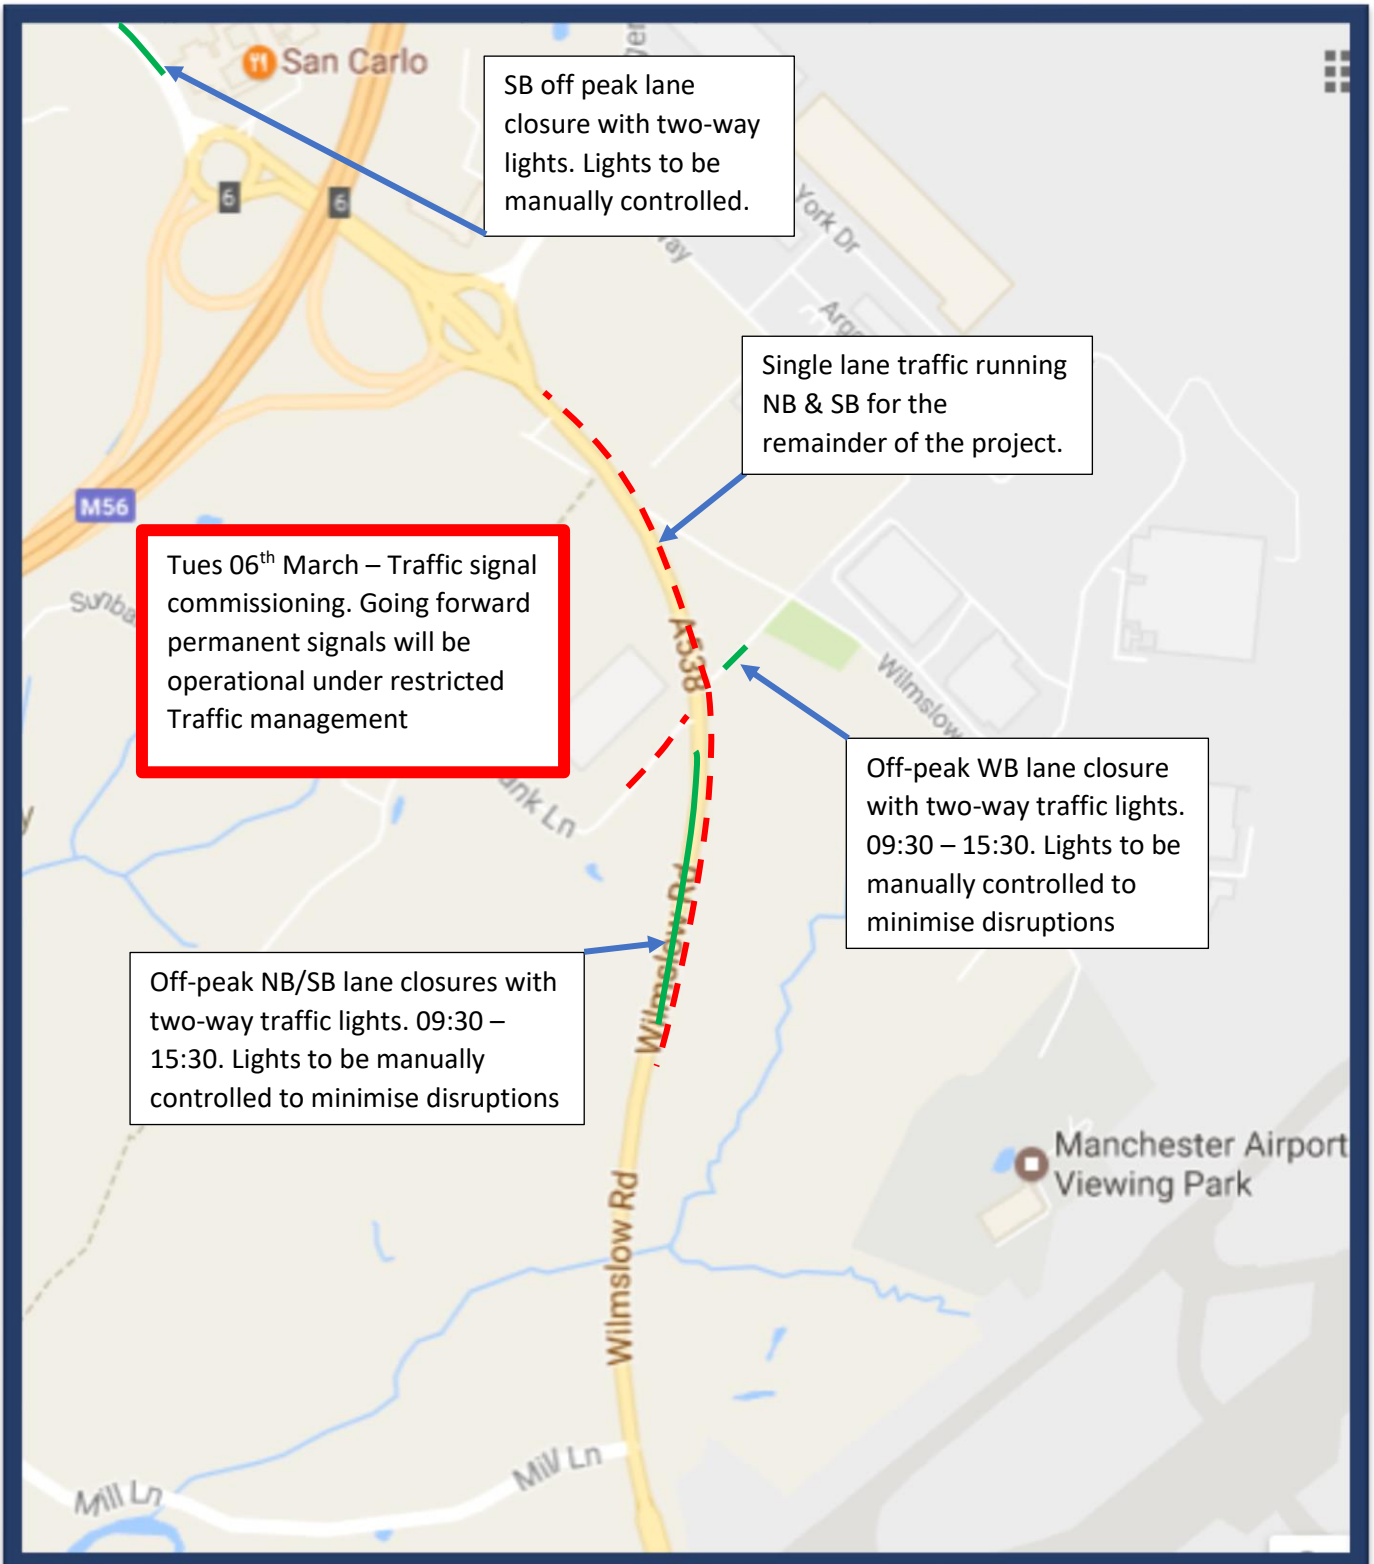

Fri 02nd – Sun 04th March

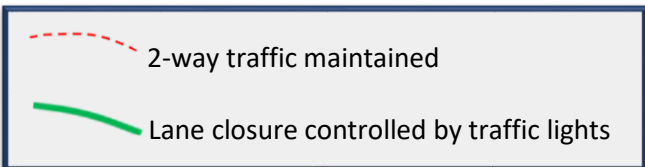

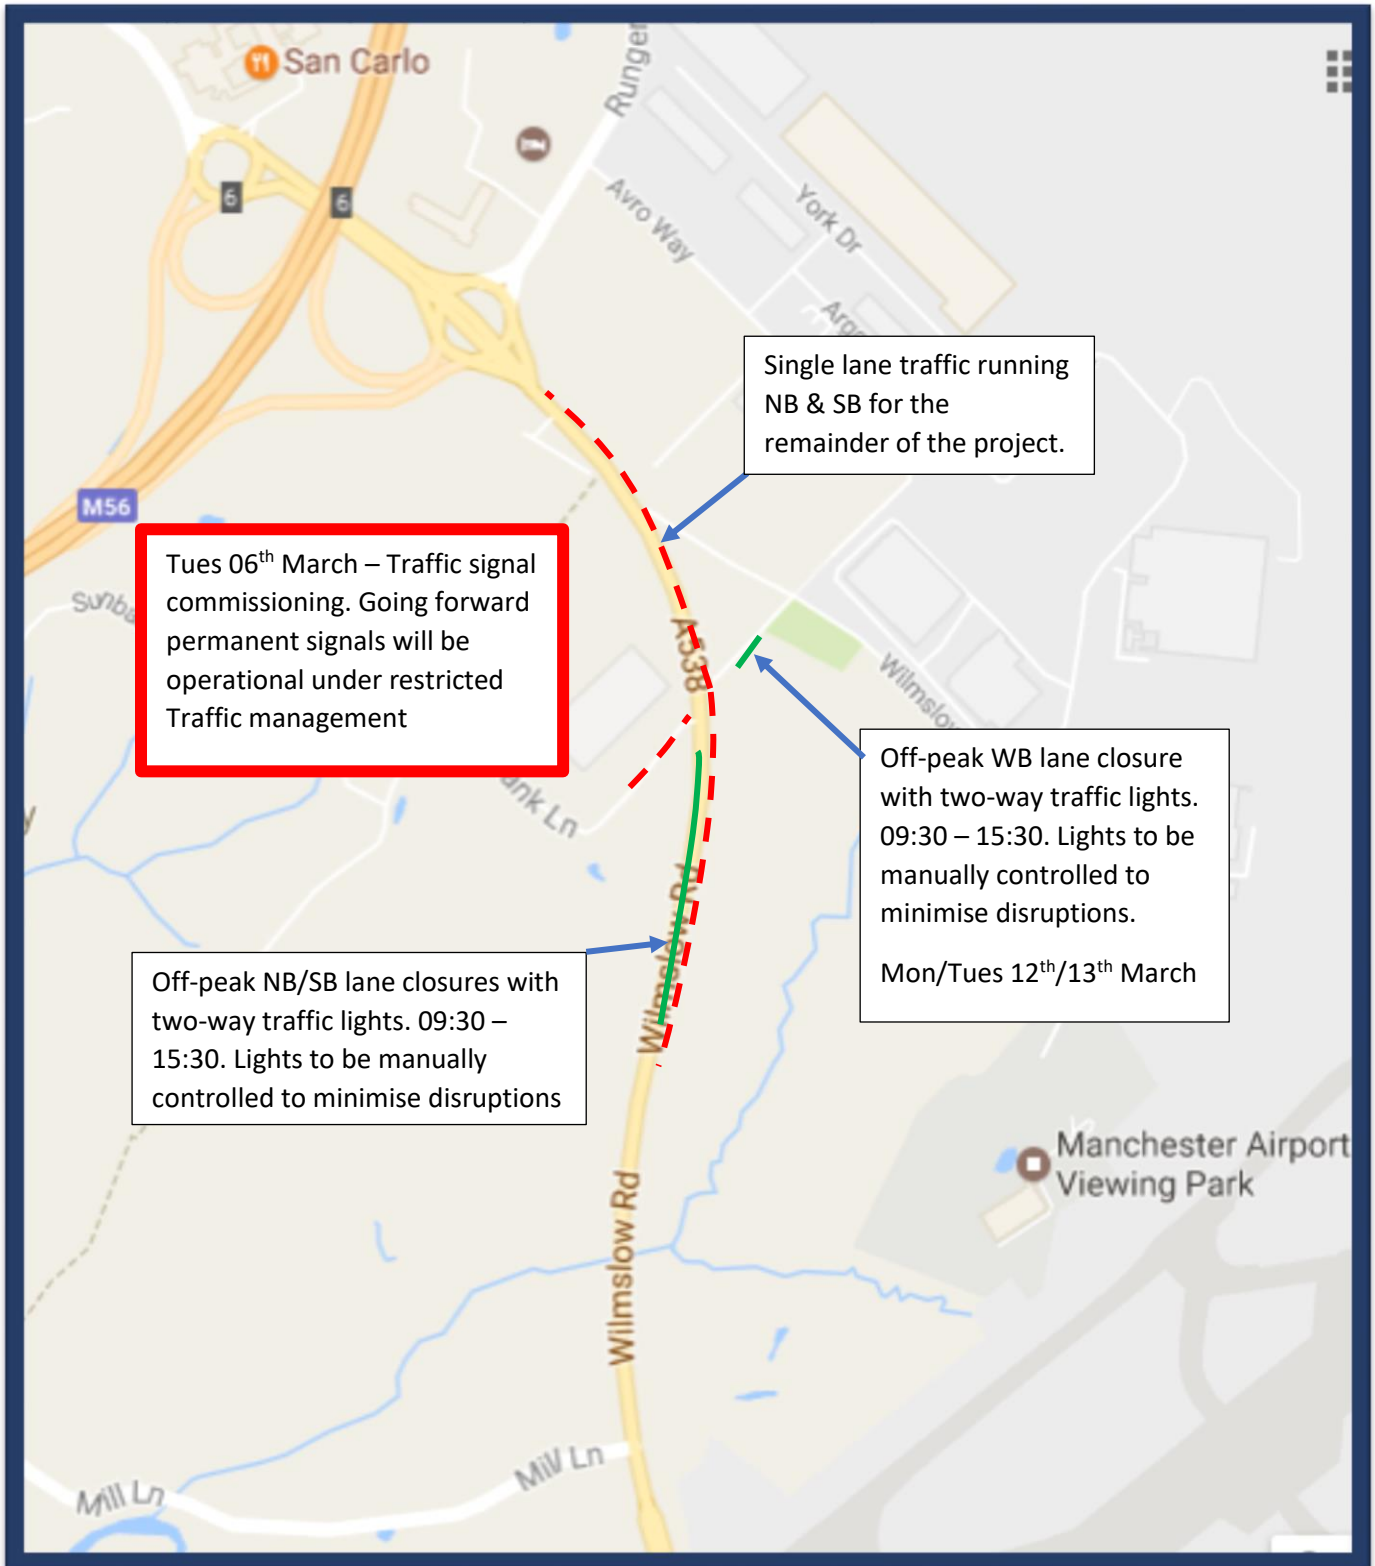

Lane 2 taper for half the roundabout.
